The Department of Mental Health Law and Policy at the Louis de la Parte Florida Mental Health Institute, University of South Florida, announces its 2016 Continuing Education Forensic Training Series for Mental Health Professionals. Instruction in forensic evaluation of adults and juveniles involved in the legal system is complemented with focused training on assessing and managing patients’ risk for violence in acute long-term care settings.
Forensic Evaluation and Juvenile Justice
8/15/2016 & 8/16/2016 • 8:30-5:00
Randy Otto, Ph.D., ABPP

This workshop will address the legal, clinical, and administrative issues related to evaluating children who are involved in the juvenile justice system. Reviewed in this two day workshop is the philosophy of the juvenile court, the juvenile justice process in Florida, Florida law regarding competence to proceed with the juvenile justice process, clinical evaluation of juveniles’ competence related abilities, assessment of violence and re-offense risk among juveniles, and assessment to facilitate disposition and treatment/intervention of those in the juvenile justice system. Upon completion of this workshop, participants may request to be placed on the DCF Referral List for court-appointment to evaluate juveniles’ competence to proceed with the legal process.

Florida Forensic Examiner Training
8/18/2016 & 8/19/2016 • 8:30-5:00
8/20/2015 • 8:30-3:30
Randy Otto, Ph.D., ABPP and Chris Slobogin, J.D., LL.M.

This 3-day workshop is designed for psychologists and psychiatrists who evaluate criminal defendants in Florida courts. The focus of the program is evaluations of defendants’ 1) competence to proceed (stand trial) and 2) mental state at the time of the alleged offense (sanity). Other types of criminal forensic evaluations are not addressed.

With respect to general forensic mental health evaluation relevant rules of evidence, the role of examining mental health professionals, ethical obligations, and strategies for report writing and testimony are discussed. For both competence to proceed and mental state at the time of the alleged offense, the Constitutional and Florida law shaping the inquiries is reviewed, followed by a discussion of evaluation approaches. Although professionals other than psychiatrists may find this program of interest, potential participants are cautioned that Florida Statutes 916 directs that, whenever possible, psychiatrists and psychologists conduct competence to proceed and sanity evaluations via court order.
